Event report:

World Diabetes Day is celebrated on 14th November every year. We, Department of General Medicine, Karpaga Vinayaga Institute of Medical Sciences and Research Centre celebrated it on 26/11/2021 to create awareness among public. Three camps were conducted one at Annanagar UHTC, second one at Pulipakkam and last one one at Karpaga Vinayaga institute of medical sciences and Research Centre.

The primary aim of the camp was to educate and create awareness among the diabetic patients and also to detect prediabetic by screening the camp population. Health professionals educated the campers about the prevention, Treatment, complications of Diabetes and also explained about the importance of nutrition in the prevention and management of Diabetes.
