CME ON “INDIA TOWARDS SUSTAINABLE DEVELOPMENTAL GOALS”

DATE: 07.12.2022

VENUE: KIMS CME HALL

TOTAL NO. OF PARTICIPANTS: 59

TOTAL NO. OF RESOURCE PERSONS: 07

ORGANIZED BY: Department of Community Medicine

India in its second Voluntary National Review has made a paradigm shift to a “whole-of-society” approach with Government of India engaging sub-national and local governments, civil society organizations, local communities, people in vulnerable situations and the private sector.

India’s commitment to the sustainable development growth (SDG) is reflected in its convergence with the national development agenda as reflected in the motto of “Sabka Saath Sabka Vikaas” (Collective Efforts for Inclusive Growth). Based on the evidence from the SDG India Index, which measures progress at the subnational level, the country has developed a robust SDG localization model centered on adoption, implementation and monitoring at the State and district levels.

In 2015, the United Nations established the 2030 Agenda for Sustainable Development with 17 identified SDGs to help UN member states achieve inclusive, people-centred and holistic development together. The NITI Aayog launched the first edition of its index in 2018 to monitor the country’s progress on the goals through data-driven assessment, and to encourage the States and Union Territories in achieving them.

With one-third of the journey towards achieving the 2030 Agenda already over, the latest edition of the SDG India Index focuses on the role and significance of partnerships in this initiative. “The report reflects on the partnerships we have built and strengthened during our SDG efforts. The narrative throws light on how collaborative initiatives can result in better outcomes and greater impacts”, explains NITI Aayog CEO, Shri Amitabh Kant on how working together will ensure success over the next decade.

Taking the above into account the Department of Community Medicine KIMS& RC organised a CME on India Towards Sustainable Developmental Goals on 7th December 2022.
