EID UL FITR is the festival that marks the end of *Ramadan*, the holy month of fasting. The EID fest 2024 was celebrated by students' council and MBBS 2020 batch. It provided an opportunity for the students, faculty and staffs to come together, celebrate diversity and appreciate the cultural significance of EID UL FITR. This event served as a platform for cultural exchange and understanding the diversity in our united campus. The celebration began with an AZAAN invoking the blessings of *Allah* followed by a DUA recitation in the remembrance of beloved *Allah*.

There was an informative talk on importance of EID by the batch 2021 and the 2022 batch brought out through a short skit. Cultural performances including dance, singing and music added color and vibrancy to the celebration. The festive occasion for EID is not complete without some fun including *Mehandi and Hijab* stations where students and faculties had a great time. This was followed by games such as dodge ball, cup pyramid, human knot and connections for faculties.

The highlight of the day was having biryani with their friends which was arranged among the students. This helped them instill the universal values of brother-hood, love and secularism.
