

8.1.6: Report on teaching sessions carried out on the relevance and operational features of immunization clinic

As per the NMC guidelines, didactic lectures on Immunization are taken in 2nd, 3rd and Final MBBS, by the department of Pediatrics and Community Medicine stressing on the importance of immunization, National immunization schedule, age at immunization, site, dose, route of administration, adverse effects following immunization and how to report adverse effects following Immunization. The departments teach about individual vaccines, origin and type of vaccine while teaching on individual diseases.

This is extract from III MBBS time table, where marked area shows SDL on Universal immunization program.

W E D	OBGY(Integ teaching/Seminar/tutorials)OG5.1 describe discuss and identify pre-existing medical disorders and discuss their management discuss evidence-based intrapartum careOG5.2 determine maternal high risk factors and	ENT (SDL) EN3.2 Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy	Community Medicine (SDL)CM 10.4 Describe the reproductive , maternal, newborn & child health (RMCH); child survival and safe motherhood interventions CM 10.5 Describe Universal Immunization Program
